

A QUESTION ABOUT Brown's Iron Bitters ANSWERED.

The question has probably been asked thousands of times, "How can Brown's Iron Bitters cure every ailment?" Well, it doesn't. But it does cure any disease for which a reputable physician would prescribe it. It is a powerful tonic, and its use is recommended by the most eminent medical authorities. It is the only iron tonic that is not only pure, but also palatable. It is the only iron tonic that is not only pure, but also palatable. It is the only iron tonic that is not only pure, but also palatable.

BROWN'S IRON BITTERS is a powerful tonic, and its use is recommended by the most eminent medical authorities. It is the only iron tonic that is not only pure, but also palatable. TALKING OF OUR DEFENSE ENGINEERS DISCUSS HOW GREAT GUNS SHOULD BE MADE.

A Number of the Members of the American Society of Civil Engineers in New York, Express Their Opinion on Steel, Its Properties and Its Uses.

New York, April 8.—The American Society of Civil Engineers talked guns last night at their club house, 127 East Twenty-third street. All the talk was based on a paper read a month ago by William Metcalf on "Steel, Its Properties and Its Uses in Structures and Heavy Guns." Lieut. W. H. Jacques, of the United States navy corps, closed in this way: "If the government is to offer prizes for the most efficient advance the field should be unrestricted except by conditions of efficiency. It wouldn't be a difficult task for artillerymen to lay down rules which would insure a thorough comparison of weight, economy, energy, penetration, etc., but let this competition be open to the world, the guns to be made at the competitors' expense, the government paying a handsome reward to the successful one only."

"The proposal of the Bethlehem Iron company just made describing the inauguration of a plant for the manufacture of modern steel gun forging and solid steel armor so long in advance of any positive inducement or guarantee from the government that even a single contract will be awarded them is a powerful endorsement of the decision reached so long ago by the naval bureau of ordinance that forged steel built-up guns were the best and solid steel the most efficient. I can't understand why the Pittsburgh manufacturers, who urge the use of cast guns, haven't made them at their expense and risk if such guns can be made so cheaply and are so sure of success. Worth, and Krupp, and Schneider have succeeded because they have heeded the laws that a long experience has provided, because they understand the benefits of annealing and the controlling power of heat, and they build up guns because they have acquired methods of performance which are both scientific and mechanical."

Dr. R. J. Gatling—he who invented the Gatling gun—had this say among other things: "Steel for gun construction should be neither too hard nor too soft, and should have the combined qualities of toughness, strength and elasticity. Such steel should be made from the most carefully selected material, and shouldn't be overheated. Gun steel shouldn't be hammered, for the reason that when large ingots are placed under the hammer the blows of the hammer will harden and condense the parts of the steel struck, and in a measure render the mass of metal less uniform in texture, and it may be difficult if the best system of tempering and annealing will bring it back to a homogeneous state. Hard steel, which contains a large percentage of carbon, if used in gun construction should be heated and annealed with the greatest possible ease, and it often happens after undergoing the most careful treatment it will be left under internal strain and will be liable to crack, or break when subjected to sudden shocks or violent and repeated strains. Hence I think a mild tough steel of good quality that is uniform in texture and possessing a high limit of elasticity will be the best material for gun construction. At all events guns made of such mild steel will not be so liable to burst, and consequently will be safer to the men using them than guns made of harder and higher grades of steel. It should be remembered that the best qualities of steel of any kind can be made worthless for gun uses by overheating and overannealing."

"I agree with Mr. Metcalf that heavy guns of great power, especially for fort use, can be cast of a good grade of steel on the Rodman principle that will have a great elasticity springing to resist abrasion combined with high strength, and power to offer uniform resistance in every direction to which they might be subjected. Such guns would be good for service ashore and would be cheaper than built guns. Guns for naval use can be made on the built-up plan that have more power in proportion to their weight than steel cast guns. It would be well for such guns to be made regardless of their cost, but in these days of economy it would be wise to have cast guns of mild steel for fort use cast on the Rodman principle, which would be equal in power and effectiveness to any in the world. Steel cast guns for fort use could be made of greater weight than guns for naval service."

Decatur is Booming.
DECATUR, Ala., April 8.—Charters are now obtained for two railroads coming to Decatur, one from Cincinnati, O., and the other from St. Louis, Mo. The incorporators are Maj. C. E. Gordon, Dr. W. E. Foster, C. C. Harris, W. W. Littlejohn, W. T. Mulligan, W. K. P. Wilson and Mr. Champion. The names are a guarantee of earnestness and ability to construct the roads. Both roads run through the mineral and timber belt of Alabama and Tennessee. The distance to both points is materially lessened, while they are not paralleled by any rival line of road or river.

Gang of Burglars Broken Up.
WALTHAM, Mass., April 8.—A gang of burglars, which has been operating along the Fitching railway, has been broken up by the arrest of three leading members. They are boys, and are by Burt. Stickney, only sixteen years old.

Death of a Temperance Organizer.
New York, April 8.—Gen. Thomas W. Conway, secretary of the Temperance League of New York, and organizer of the Temperance Insurance Association of New York, died suddenly last evening. He was forty-five years old.

Of Course He Was.
GALVESTON, Tex., April 8.—The annual meeting of the Galveston, Houston & Henderson railroad was held here to-day. Jay Gould was re-elected president.

MYSTERIOUS DEATH.

A Young Man Supposed to Have Been
Foully Dealt With.

WEST JEFFERSON, O., April 8.—Emil Hopfe, a young man, aged twenty-six years, whose home is two miles south of here with his mother and brothers, well-to-do people, went to Columbus, O., Saturday, with \$90 to purchase a suit of clothes. Monday morning he came home about daylight, very weak and almost dead from vomiting and pains in his stomach. A physician was summoned Monday night who concluded he was suffering from the effects of poison. His pulse was nearly gone and it was plain he could not live. The physician, Dr. Beach, of this place, questioned the young man who said he had been robbed and had been drinking, although he had only drunk three glasses of beer. He got off the cars at Galway, Sunday, and it is not known where he stayed during the night. He died last evening when the following card was found on his person, written in a very good hand, although the boy could not write. It seems some one wrote it, and placed it in his pocket. It was written on a Scioto Valley railway card as follows:

"April 3, '87.
"Amel Hopfe went to Columbus Saturday to buy a suit of clothes and got with Courtwright got drinking a little and some one stole my money. I am ashamed to go home. This all happened there at that corner saloon there by Tue-me, a Dutchman. My folks do not know anything about this."
It is supposed he was drugged and robbed, or after being robbed he took poison. The card on his person and which was found when he died, indicates he did not think he would get home. A post mortem examination was held this morning, and the physician found death was caused probably by a poison. The stomach was badly inflamed. The stomach will be analyzed and the case sifted to the end. The coroner's inquest will be held Saturday.

Greensburg's Gas Well.

GREENSBURG, Ind., April 8.—The company drilling the gas well has reached the depth of 750 feet, and will continue until they reach 2,000 feet if necessary. The drill is now passing through shale, and it is believed Trenton limestone will be reached at the depth of 900 feet. Last evening James E. Mendenhall, W. W. Hamilton and other prominent citizens, tested the well for gas by dropping a rope saturated with coal oil into the well, and a great crowd gathered around the well to see it go. Suddenly an explosion took place, followed by reports in rapid succession, like the report of the firing of a thousand pistols, causing consternation of the bystanders. Mendenhall and Hamilton ran like antelopes for a place of safety, to the great amusement of the crowd, but no serious damage was done to the well.

The Rock Island Train Murder.
MORRIS, Ill., April 8.—The testimony of the convict, William J. Gallagher, was continued in the Schwartz-Watt murder trial. Gallagher detailed several purported conversations he had had with Schwartz in the Cook county jail. Schwartz was anxious to have Gallagher take \$3,000, which were in one hundred dollar bills, and have it changed to five and ten dollar notes, and offered to pay Gallagher \$500 if he would arrange the matter. Gallagher asked Schwartz if the money was part of the proceeds of the Rock Island express robbery. Schwartz declared that it was not. He said a Jew had left a satchel on the Rock Island train and that he had found the money in this satchel.

Killed for Interfering in a Quarrel.
CARROLLTON, Ill., April 8.—At the election in the town of Walkerville, in this county, Tuesday night, Thomas F. Tatman undertook to quell a disturbance that was going on between Frank Painter and Willis Gillingham, when Painter drew a revolver and shot Tatman through the heart, killing him instantly. Tatman was fifty years of age, and leaves a wife and several children. Painter is only eighteen years old and the only son of his parents. He has long been considered a hard case, and was under the influence of liquor when he did the shooting. Painter is held for wilful murder.

Shoots Her Traitor Fatally.
ST. PAUL, Minn., April 8.—John Murphy, a young man in the employ of C. G. Hegener, who keeps a barber shop on Fourth avenue, south Minneapolis, was fatally shot by Mrs. Mary Hegener, his employer's wife, on Third street, near the Union depot, in St. Paul, shortly before 6 o'clock yesterday evening. The bullet penetrated the brain from the rear. Mrs. Hegener is an attractive young woman and claims Murphy accused her of improper intimacy with himself and other men, and that she had to kill him to prove herself innocent. Murphy is still alive, but sinking rapidly.

Natural Gas Enthusiasts.
CINCINNATI, April 8.—Yesterday the Cincinnati, Hamilton & Dayton took a party of capitalists, manufacturers and representative citizens to Findlay, the special train making the fastest time on record—three hours and a half. Of course the gentlemen were delighted and they are now talking natural gas as enthusiastically as could be wished. The Cincinnati, Hamilton & Dayton has large plans in connection with Findlay and they will probably materially assist in its present phenomenal boom.

Not to Recognize Unions.
CHICAGO, April 8.—At a largely attended meeting of the Master Carpenters association, it was unanimously decided not to recognize unions in engaging men and to offer, as a compromise, to pay a scale of wages ranging from thirty cents an hour and adopt the eight-hour day. There is no prospect of an early settlement of the carpenters strike as the compromise will not be accepted by the men.

Shipping Flour By Water.
ST. PAUL, April 8.—The Pioneer Press says that Minneapolis millers began yesterday shipping flour by boat to New Orleans. This is the only resource in view of the rail rates made compulsory by the interstate commerce law. If they cannot find a market by water they must stop business.

Providence, K. C., April 8.—The whole Democratic state ticket is elected except secretary of state. McGinnis, Democrat, has a plurality, but the Republican legislature will place the present incumbent and nominee of the party, Addeman, in the office.

WASHINGTON TELEGRAMS.

CONGRESSMAN FRANK HURD INTER-
VIEWED ON FREE TRADE.

He is Going to Make the Race for Re-Election on That Platform, and Believes That It Will Be Adopted in This Country—New York the Great Port of Entry.

WASHINGTON, April 8.—Frank Hurd's announcement that he is going to make the race for congress again on a free trade platform surprises nobody who has talked to him on the subject of free trade. He is as confident in his belief that free trade is going to be adopted in this country as any man can be upon any topic of the future.

In conversation with a reporter on the subject the Ohio congressman said: "Why, there is no doubt that we shall have free trade, practically free trade, at least, in this country within a few years. I don't mean free trade in the absolute sense, for, of course, we must always raise a revenue by taxing some articles, and it may be necessary to levy that tax, in part, on imported articles. Even England, which is recognized as a free trade nation, taxes some of her imports, but those taxed are, as a rule, of the class not produced at home. There is no effort to adjust the taxes to protect anybody at the expense of others, but on the contrary where it is found necessary to levy a tax on imports it is levied on the articles of common use, but not produced at all in England, and so the tax is distributed around to everybody using the taxed articles."

"So you think the free trade doctrine is gaining ground in this country?" was asked him.

"I have no doubt of it," he answered. "It is only a few years since the present effort for the abolition of the protective tariff began, and the result have been very encouraging."

"Have you more free traders in this congress than the last one?"

"A larger proportion of the Democrats are free traders than in last congress, and the Republicans are a few of them, coming over to our view of the matter, especially those from the northwest."

"How about the south, though? Isn't protection gaining ground there quite as fast as free trade is in the northwest?"

"No, I think not. There are a few spots in the south where the manufacturers rule or try to rule, and there have been efforts to force the people to their adoption. They have been rejected by the people as is seen at Birmingham, the great protection and iron manufacturing point in the south. Their member of the last house was a protection Democrat, and when he, a Democrat, declared himself a protectionist his constituents in that so-called protection district set to work and defeated him for a renomination, and elected a free trader in his place."

"Then you really expect to see this country adopt the free trade theory, as England has done?"

"I don't think there is any doubt of it. It will come, within the next decade."

New York the Great Port of Entry.

WASHINGTON, April 8.—A statement just prepared by the customs officials at New York shows something of the importance of that port of entry and its work as compared with others. The report shows that the collections of customs at the port of New York have been during the past thirty years over \$3,000,000,000. A comparison of these figures with the entire customs receipts during the same period shows that there is imported at New York three times as much as at all the other ports put together. The entire customs receipts of thirty years named was a trifle over \$4,000,000,000, so that when you take away New York's \$3,000,000,000 it shows that the other ports all together have only collected about \$1,000,000,000 while New York collected \$3,000,000,000.

Mrs. Emmons in Washington.

WASHINGTON, April 8.—Mrs. Emmons was in the city yesterday and called upon her counsel, Henry Wise Garrett, but returned again to Riley, Md., where she is stopping. In the evening, she has no definite plan as yet for the future, but will probably remain in this city until the questions at issue between her and Professor Emmons concerning property are settled.

Contributing to Hendrick's Monument.

WASHINGTON, April 8.—The total amount contributed during the past year for the erection of a monument to the late Vice President Hendrick is \$21,000. The sum required to erect the monument is \$50,000, and it is thought that it can be raised during the next year.

Latter-Day-Saints in Ohio.

CLEVELAND, O., April 8.—In a little tumble-down meeting house on a hillside in the town of Kirtland, about thirty miles east of here, a convention of Latter-Day-Saints was held yesterday. The temple was built by Joseph Smith, and the Josephites, as these now believing in the faith call themselves, met yesterday, about one hundred delegates being in attendance. The conference will be in session eight days and will discuss the position of the church to polygamy. The Josephites are monogamistic Mormons, and bitterly denounce the Utah settlers as sectaries. Several Utah delegates are present and will be given a hearing.

Out on a Strike.

NEW BRITAIN, Conn., April 8.—The molders and grinders at P. & F. Carbins, brass manufacturers, went on a strike this morning, their demands for the discharge of scabs and an increase in certain kinds of work, having been refused.

A Small Blast.

NEW YORK, April 8.—A fire this morning in the building, No. 85 Liberty street, caused a loss of \$9,000. The principal losers are J. P. Mills, drug merchant; T. M. Allen, printer; L. W. Ahrens, stationery, and Baron & Copeland.

Masons and Bricklayers Out.

WATERBURY, Conn., April 8.—Masons and Bricklayers Union No. 8 refuse to work for firms employing non-union men, and some twenty-five journeymen are out on a strike.

Death of an Ex-Mayor.

LEWISTON, Me., April 8.—Hon. David Loran, ex-mayor of this city, died yesterday, aged sixty-two years.

WOMAN SUFFRAGE IN KANSAS.

Disgraceful Scenes at the Polls, and After
the Election Was Over.

LEAVENWORTH, Kan., April 8.—This city witnessed the remarkable sight of a procession yesterday in which 900 of the most prominent and respected ladies of the city, in their private carriages, took part in celebration of the defeat of the nominees of the woman suffrage movement. All wore badges with pictures of S. F. Neely, the successful independent candidate for mayor. The vehicles and many of the houses of business were decked with flags. Much money was used in the election purchasing women's votes, and the attendant expenses of carriages to convey them to the polls has made it the most costly municipal election in the history of the town. Some of the ladies were deterred from voting by women of the other side, threatening to ventilate family secrets. The most bitter animosities were engendered, scandals revolved and unwarranted attacks were made on reputations. The female suffrage law, in this city at least, will be a dead letter in the future. Mrs. Helen M. Gougard, the Indiana woman suffrage agitator, who has labored diligently in Kansas since the campaign opened, is much chagrined over the result.

The most ludicrous scenes were enacted at Wichita during the municipal election. There were 600 women registered, and of these 200 put down their occupation as "sports." About three hundred are prohibitionists and the rest respectable married ladies with no decided views on the liquor question. Allen, Republican, and Martin, Labor, were the candidates for mayor. The "sports" were first to exercise their newly acquired privilege, and as they drove up in their carriages they were greeted with cheers and in some cases insulting remarks. There are fully five thousand transient strangers in town, and they gathered around the polls and watched the fun. The "sports" voted solidly for Martin, and the rest of the female vote was about equally divided. Martin was elected by 600 majority.

A Riot Over an Election.

LITCHFIELD, Ill., April 8.—A political riot was the result of the city election held here. The contest in the first ward over the alderman was bitter from the commencement, and the Thorp and Concidine factions were crying "blood." Last night at 7 o'clock one of the Thorp faction became involved in a difficulty with a Concidine man, and a battle between the factions ensued. Over twenty men participated, and were urged on by a mob of about 300. The melee lasted over two hours, and the police were powerless. Many broken heads and closed eyes were the result. More trouble is feared, as it is believed the two factions are marshaling their forces for a conflict.

The Peru, Indiana, Murder.

PERU, Ind., April 8.—The murdered man, Charles Emerick, was buried this morning at 10 o'clock. Court adjourned and the entire bar participated, along with a large concourse of citizens. Mrs. Emerick's grief was terrible to witness and she has the universal sympathy. The killing is the one theme heard upon the streets. It is now said that during Emerick's absence Miller made insulting remarks to Mrs. Emerick. The husband heard of this, and meeting Miller on the street, assaulted him and was killed by him. Young Emerick, brother of the deceased, attempted to kill Miller last night but was prevented. The murderer is out on \$7,000 bail.

Protective Tariff Resolution.

NEW HAVEN, Conn., April 8.—After a long debate the senate, by a vote of 19 to 2, passed the following resolution as a substitute for a resolution that called for free raw materials: "Resolved, by this Assembly—First, that we favor the protective tariff system; by which we have been greatly benefited as a state and a nation, and we call upon our senators and members of congress to favor a judicious tariff, keeping protection always in view; that our large manufacturing and agricultural interests may thereby be encouraged, fostered and promoted, and labor may receive its due reward."

Didn't Find Them Asleep.

ST. JOHNS, N. B., April 8.—It is reported that on Friday last the cruiser Vigilant on leaving Beaver Harbor, discovered among the fishing fleet an American vessel which had evidently come to buy bait. The cruiser bore down upon her, whereupon the American clapped on all sail and put to sea. The vessels were about six miles apart when the chase began. The Vigilant gradually gained on the fisherman and a blank shot was fired from her six-pounder to bring her to. She refused to respond and kept on her course, and in a short time was over the line and safe from pursuit.

The Eagle May Not Be Lost.

ST. JOHNS, N. B., April 8.—The steamer Hector has arrived here with 7,000 seals. She did not see anything of the steamer Eagle. The report that the Hector passed through a lot of wreck stuff is not true, and people here are beginning to hope that the Eagle may, after all, be safe. The Hector reports the Vanguard with 6,000 seals, the Neptune with 4,000, the Ranger with 3,000, and the Arctic and Esquimaux with 3,000 each. The Nimrod is reported as having passed File Cove full yesterday and she is expected to arrive here hourly.

Young Husband Mangle Himself.

COLUMBIA CITY, Ind., April 8.—Albert Magie, a young farmer, two miles north of here, was married in March last to a young lady near his age. They lived happily. Yesterday she was horrified to find him in the barn dead, where he had hanged himself. No cause is known for the act.

Elevated Railroad Hill, Killed.

HARRISBURG, Pa., April 8.—The bill providing for an elevated railroad in Philadelphia was practically killed in the house, a motion to take it up out of its order being defeated by a vote of 183 to thirty.

By Electricity Instead of Hanging.

HARRISBURG, Pa., April 8.—A bill was passed by the senate yesterday providing that the punishment for murder in the first degree may be death by the use of electricity.

Iron Importers Suspend.

NEW YORK, April 8.—Latass & Co., iron importers, have suspended. Liabilities about \$100,000, mostly abroad.

YOU

ARE

INVITED

To call at the Mammoth Furniture Store of
HENRY ORT, to inspect his large
stock of

FURNITURE

In the newest styles, which will be offered at
prices uniformly low on every
article.

Do You Want Anything

—In the way of—

CHAIRS,

Chamber and Parlor Suits
in the Very Latest
Styles,

Lounges, Folding Beds, Sideboards, Book
Cases, Wardrobes, or any other article in the
line of Household Furniture? If so, it will
be economy for you to call on

DRY GOODS and NOTIONS.

The Northeastern Kentucky
Telephone Company
has connection with the following places
Mayville, Mayslick, Helena, Shannon, Bar-
donia and M. Oliver.
Office in Mayville: Parker & Hopper's
corner Second and Sutton streets.

OPIMUM

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,
Proprietors.

RATES OF SUBSCRIPTION.

THE DAILY BULLETIN will be delivered to any part of the city at 6 cents a week, or one year for \$3.

THE DAILY BULLETIN to any postoffice in the United States, postage prepaid, at twenty-five cents per month or three dollars per year.

FRIDAY EVENING, APRIL 8, 1887.

Useless Opposition.

The Labor Leader, of Boston, says: "The opposition shown by printers in certain sections of the country against stereotype plates is unworthy of the craft. Stereotype plates are as much a part of labor-saving machinery as the press, steam engine or electrotyping battery. It would be just as logical to insist that the Herald and Globe should get up duplicate forms instead of electrotyping one; just as reasonable to insist that the large metropolitan dailies should have their editions 'kicked off' on a hand-press, instead of using the most improved steam-power appliances, as it is to demand that each struggling periodical must have every line of type set up in its own office, because plate matter necessitates less work."

"The opposition to labor-saving machinery is foolish and futile, and intelligent mechanics should turn their attention not to having things done in the most laborious way, but in securing for labor the largest possible benefit from every new labor-saving invention."

Misrepresentation.

The resolution in regard to the plate matter, which has caused such a wall from the editors of the Republican, was part of a letter, by "Kentuckian," published in the BULLETIN some days ago. Tom Davis knew this, Hawthorne Hill knew it, and their blow and bluster in yesterday's Republican, characterizing the resolution as the "BULLETIN's impudent falsehood," only characterizes themselves as impudent and malicious falsifiers, and their article throughout as a mean, miserable and contemptible misrepresentation of the matter.

We are not troubling ourselves about the "plate system." We know we've got a good thing, both for ourselves and the workingmen of Maysville and we know some one else—not necessary to call names—would like to have something as good. We are not carrying a picayune about that resolution, and never did. It was not solicited by us, but was simply part of a letter "Kentuckian" sent us from Cincinnati, and was published as such, and only as such. We might add that "Kentuckian" has been in the printing business about as long as the editors of the Republican, and in due time he may be heard from on this matter. Our readers will pardon us for giving any attention to the subject, but we do not wish to be misrepresented.

The editors of the Republican are grasping at straws, but straws won't save 'em, now. The "handwriting is on the wall."

"THE BULLETIN's falsehoods," forms part of an article in yesterday's Republican. When it comes to a question of veracity, we do not care to discuss the matter with men who were publicly denounced as liars only a few months ago, during the discussion of that "Story of a Will."

A New Way to Pay Old Debts.

Shakespeare tells how this can be accomplished in one of his immortal plays, but debts to nature must be paid on demand unless days of grace be obtained through the use of Dr. Pierce's "Golden Medical Discovery." It is not a "cure all" but invaluable for sore throat, bronchitis, asthma, catarrh, consumption, and all diseases of the pulmonary and other organs, caused by scrofula or "bad blood." Scrofulous ulcers, swellings and tumors are cured by its wonderful alternative action. By druggists.

Most Excellent.

J. J. Atkins, Chief of Police, Knoxville, Tenn., writes: "My family and I are beneficiaries of your most excellent medicine, Dr. King's New Discovery for consumption; having found it to be all that you claim for it, desire to testify to its virtue. My friends to whom I have recommended it, praise it at every opportunity."

Dr. King's New Discovery for consumption is guaranteed to cure coughs, colds, bronchitis, asthma, croup and every affection of throat, chest and lungs. Trial bottles free (Large size \$1.00) at the Drug Stores of J. C. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by J. C. Pecor & Co.

The Society Man of To-day.

The evolution in the society man is, perhaps, more pronounced than in either the sporting or Wall street type. European travel and experience in various quarters across the water are responsible, in a large measure, for the changes which have taken place in men of leisure and those who devote nearly all of their time to social matters. The old type was giddy, talkative and more or less effeminate. He was a lady killer, masquerade and a swell, danced as often as the opportunity offered, and affected a spirited manner and great animation in telling small talk and gossip. He was not a being who commanded admiration from men of sense and importance, but he pleased the ladies, and that was considered quite enough.

He is dignified in manner, quiet, monotonously exclusive, and he affects a single club where he knows outsiders cannot intrude upon him. He drives heavy horses to ponderous English carts, seldom attends the theatres and does the opera only on important nights.

As a rule he does not dance unless the occasion is one of great importance. His hair is clipped short, parted carefully, and there is about his whole attire and manner an air of ease and negligence which is so finely assumed that it seems thoroughly natural. From the artful and animated creature of a few years ago the society man has grown into the most simple and unostentatious of New Yorkers. To men whom he believes to be below him in the social scale he is an absolute mob, in the sense that he will have absolutely nothing to do with them and refuses to recognize them under any circumstances, even though unavoidably subjected to an introduction. To those in his own set he is thoroughly natural, unaffected and entertaining. There are very few such men in town—perhaps not over 200 at the outside—but they are invited everywhere, and the more important of them have it in their power to make or mar the success of any entertainment to which they are invited, or make the reputation of a beautiful woman by a single word.—Blakely Hall.

Burmah's Forests of Teak.

In acquiring Burmah, England has possession of vast forests of teak, which, never plentiful in India, was becoming comparatively very rare. Of all the woods grown in the east this is the most valuable. It is neither too heavy nor too hard; it does not warp or split under exposure to heat or dampness; it contains an essential oil which prevents it rotting under wet conditions, and at the same time acts as a preservative to iron and repels the destructive white ants; it is, with a handsome wood, of several varieties of color and grain, and takes a good polish.—Chicago Times.

Death of a Well Known Jeweler.

CINCINNATI, April 8.—Clemens Oskamp died at his residence, at 142 East Fifth street, at 7:30 this morning. He was one of the oldest and best known residents of Cincinnati for over fifty years, and for over thirty years being the head of one of the largest jewelry establishments in the west. Mr. Oskamp was born in Westphalia, Prussia, August 19, 1822. He was one of seven sons. When he was fourteen years old his father brought the family to America to avoid being forced into military service, under the Prussian rules, and especially as he was a sympathizer with France.

Commit a Murder While Drunk.

ST. EDWARDS, Neb., April 8.—During the progress of a silver wedding celebration Tuesday night, Warren Long, a prominent farmer, was shot and killed by Edward Carr, who had been drunk and quarrelsome during the evening, and had been kicked out of the hotel. Carr was captured yesterday and he claims he was so drunk that he remembers nothing of the murder.

Battle Field Memorials.

AUGUSTA, Me., April 8.—Under the resolve passed by the last legislature relative to the erection of memorials on the battle field of Gettysburg, the governor yesterday designated as commissioners fifteen men, who were in command in the three days' battle. The board with the governor as chairman, will leave here on May 2 for the battle ground.

Condition of Wheat.

CHICAGO, April 8.—Reports received from every county in Indiana, Illinois and Ohio show that the average of wheat in Indiana and Illinois is 93 per cent, and in Ohio 98 per cent. The condition of wheat in Illinois and Indiana is 84 and in Ohio 85. During the last half of March the freezing and thawing damaged the crops some, but an improvement is expected from favorable weather this month.

An Incendiary Fire.

WEST BROOKFIELD, Mass., April 8.—About 4 o'clock this morning the block belonging to E. H. Blair, and occupied by E. H. Blair & Co., general store; George H. Coolidge, millinery; G. A. Bailey, jewelry, and C. H. Clark, druggist, was entirely destroyed by fire. The loss is estimated at \$50,000, insured. The fire is supposed to have been the work of an incendiary.

Funeral of Miss Catharine Wolfe.

NEW YORK, April 8.—The funeral of Miss Catharine L. Wolfe took place this morning from Grace church. The church was crowded with friends and relatives of the deceased, and strangers as well to do honor to the dead woman for her many efforts to relieve the needy and distressed.

Fell From a Painter's Scaffold.

NEW YORK, April 8.—While at work on the building at 41 Broadway, two painters, Peter Murray and Daniel Alfred, were killed by the falling of a scaffold. They fell from the seventh to the first floor, and their bodies were literally shattered, their arms, legs, ribs and head being broken.

The Savanna Victims Buried.

ST. LOUIS, April 8.—The last of the miners of the Savanna, Indian Territory, mine disaster, who lost their lives by choke damp, were taken from the mine this morning and buried under the auspices of the I. O. O. F., Knights of Labor and the Knights of Pythias. About 500 miners attended the funeral from McAllister.

Actresses and Their Jewels.

It is strange that actresses have not learned to appreciate the risk of carrying their jewels with them on their professional tours. Another case of robbery of a distinguished artist's diamonds and pearls has been reported. In olden times, brass mounted bits of colored glass answered every purpose on the stage. But those were the days when salaries were more equitably apportioned than is now the rule at the theatre, and the idea of giving 90 per cent. of the receipts to a star or leader of a company had not been conceived.—Boston Transcript.

City Items.

Try Langdon's City Butter Crackers.

All kinds of seed, sweet and other potatoes at George H. Heiser. ad2w

Easter cards—new and beautiful designs—at G. W. Blatterman & Co.'s.

Ask your grocer for Foerster's City Butter Crackers. They are the best.

A full supply of school books always on hand. Give us a call.

J. C. PECOR & CO.

Our display of satteens is not equalled in the city. Prices the lowest.

You are invited to see our display of carpets, rugs, curtains, &c. A full line at bottom prices.

PAUL HOEFELICH & BRO.

REMOVAL.—Miss Lou Powling has removed her millinery and notion store to the January Block, in the store-room formerly occupied by M. A. Runyon. She has just received a nice lot of fancy yards. a2dlm

COOPER'S MALL.—Riffe & Henderson, the prescription druggists, are paying special attention to the prescription business, and have a stock of drugs, medicines and chemicals which they guarantee to be the best. Pure wine and liquors, toilet articles and stationery of every description, sponges and chamois, face powder and perfumes, imported tooth brushes, &c. Give them a call and be convinced that you can save money. Prescriptions filled day or night by competent men. RIFFE & HENDERSON.

Removal.

Dr. G. M. Williams has removed his dental office to building on Third street, adjoining Dr. Shackelford's office.

Triumphs of "Modern Journalism."

The extraordinary disproportion constantly existing between the importance of a topic and the space devoted to it must strike every newspaper reader of ordinary intelligence. It is not so much that graver subjects are altogether neglected, as that frivolous, stupid or objectional themes are thrust into absurd prominence by the side of affairs of weightiest moment. This deplorable tendency is observable even in such expensive luxuries as cable dispatches—not the sham messages manifestly concocted in this city, but those which bear internal evidence of genuineness and which cost money.

A cable dispatch in a New York newspaper often reads like a page from a London society journal—the emptiest and most contemptible of periodical publications. In the treatment of domestic news the same want of proportion, the same downward tendency is observable. The space occupied by trivialities and indecencies is preposterous. Whole columns are devoted to the vulgar horrors of the police court, the sayings and doings of prize fighters, the junketings of the lowest order of politicians, the drunken frolics of a miserable variety actress, the elopement of a stableman, dog fights, cock fights and every other kind of low vice and profligacy. And day by day the offense grows ranker. Only a short time ago no newspaper with the slightest pretense to respectability would have dared to print a line of the impurity with which, in these later days, whole pages are defiled. The editors have even crossed the sea in search of abominations greater than any yet exposed in our own courts of justice, and have published the details here, poisoning the moral atmosphere of the whole country.—New York Critic.

A Cure for Corns Wanted.

"Any man who wants to make a quick and certain fortune," observed a Broadway druggist the other day, "can do it by inventing a sure cure for corns. It doesn't matter how many there are there's always room for one more. Corns are a universal weakness of the American people. There isn't a day that I do not have calls for corn cures from anywhere from fifty to 150 men, women, girls and boys."

"Is there any actual sure cure for corns?" I asked him.

"That depends," said he. "There is hardly a remedy that would not remove corns if the people did not wear shoes. The trouble is that while they are continuing the friction and pressure that originally produced it. But, whether they cure or not, the good remedies, if properly applied, keep the corn from increasing or hardening and reduce its annoyance to a minimum. There are hundreds of people who employ a chiropodist by the year at a contract price, and it is his duty to keep their corns pared down and their feet in order. The corn cures enable people who cannot afford this luxury to care for their own toes with little waste of time or trouble.—New York News.

new car yesterday afternoon.

GORTON'S New Orleans Minstrels and
Gold Band will be here April 16th.

REV. J. M. EVANS is engaged in a pro-
tracted meeting in the Presbyterian
Church at Portland, near Louisville.

THE friends of Mrs. Geo. W. Sulser will
regret to learn that she has been very ill
for several days. She was some better
last evening.

T. C. WESTFALL has sold to Garvey,
Feltman & Co., of Cincinnati, four lots in
Dover, on two of which stand two to-
bacco warehouses, for \$4,900.

THE wife of Frank Richmond died sud-
denly this morning, at her home near
the almshouse. She had been ill with
measles and pneumonia for several days,
but was sitting up shortly before her
death.

THE programme of a farewell and bene-
fit concert given Mr. A. H. Knoll by the
managers of the opera house at Erie, Pa.,
March 28th, is at hand. One of the
selections rendered was a quick step en-
titled "Captain Heflin," arranged by the
Professor.

DR. CLON C. OWENS is expected home
this evening from Philadelphia, where he
has been attending lectures at Jefferson
Medical College the past two or three
sessions. His friends will be gratified to
learn that he graduated a few days ago
with the highest honors, at the head of a
class of four hundred students.

DR. PIERCE'S "Favorite Prescription"
is a most powerful restorative tonic, and
combines the most valuable nerve
properties; especially adapted to the
wants of debilitated ladies suffering from
weak back, inward fever, congestion, in-
flammation, or ulceration, or from nerv-
ous or neuralgic pains. By druggists.

THE sermons which Dr. Hays is preach-
ing to his congregation this week are
able and instructive. Although no
special excitement, confessions are made
every night—six or seven to date. A
cordial invitation is extended to the pub-
lic to attend the meetings, which will
be continued at least until after Sunday.

Personal.

Mrs. John Duley is visiting her rela-
tives at Millersburg.

Hon. Garrett S. Wall has returned from
a trip to Cincinnati on legal business.

Professor Kappes and wife are ex-
pected to arrive this evening from Den-
ver, Col.

Garrett B. Wall returned yesterday
from Peeksville, N. Y., much improved
in health.

Alvin O. Philbrook and mother have
left for their home in Marion, Ohio. Mrs.
Philbrook spent a very pleasant winter
with her daughter, Mrs. G. W. Petry,
and parted with sincere regret from the
many kind friends she met while in
Maysville.

A Woman's Exchange.

The ladies of the Mite Society of the M.
E. Church, South, will open a Woman's
Exchange at an early day for the sale of
articles both useful and ornamental.
Those in charge will be prepared to fill
any orders for cakes and home-made can-
dies they may receive. They will also
extend the privilege of selling, on com-
mission, any article of "fancy work," left
in their care. This will supply a desir-
able place and opportunity for disposing
of woman's work, a need long felt. The
reputation that the ladies gained by their
successful experience in the manufactur-
ing of cakes and candles during the holi-
days will, we are sure, be sufficient guar-
antee of their capabilities in that line.
They will expect also to reopen their Ice
Cream Parlors during the summer
months. The proceeds of articles con-
tributed for sale for the church, and or-
ders taken for cakes, etc., will belong to
the fund for furnishing the new church.
They hope to be ready to open by the
middle of April at their old stand in the
January Block.

The ladies earnestly solicit the pat-
ronage of all persons, both in furnishing
articles for sale and in purchasing.

"KENTUCKIAN,"

Gives a Few Facts About Birming-
ham, the "Booming" City
of the South.

"Speculators Have Reaped Their Har-
vest and Gone, and Soon the
Bubble Will Burst."

SOUND AND SENSIBLE ADVICE.

(Special Correspondence of BULLETIN.)
BIRMINGHAM, ALA., April 4, 1887.

If, after reading a few plain but true facts
about this place, you desire to visit Birming-
ham my advice to you is to take the "favorite
route," the "Queen and Crescent." By so
doing you will reach this place without
change of cars, and have the pleasure of
going over one of the most picturesque roads
in the United States, especially the Cincinnati
Southern—Cincinnati to Chattanooga.
The cars on this road are first-class in all re-
spects, being large, roomy, clean and comfort-
able, showing that the "Q. and C." people are
"wide awake," and spare no pains to add to
the comforts and pleasure of their patrons.
As to politeness, accommodation, etc., the
conductors and other employees are all that
the definitions of the words imply.

Birmingham is in about the center of Ala-
bama, about 140 miles from Chattanooga,
Tenn., on the Alabama and Great Southern
Railway. The town lies in a "basin"—so
to speak, being almost surrounded by hills—
mountains, as some would call them. Popu-
lation, at present, about 30,000. As to climate,
there is not much difference from that of the
Ohio Valley. While the weather does not
become so cold here, it gets considerably
warmer, and the change is just as great, com-
pared by degrees. Still, it is said to be very
healthy here, and must be so, as several peo-
ple, who have been here for a short time, in-
formed me that they have gained from ten to
twenty pounds in weight.

The advance in real estate has been rapid,
and prices now demanded are out of all com-
parison to the real value of the land. On the
principal streets, \$1,500 per front foot is the
price demanded for an average building lot,
and there are few to be had at these figures.
None of the streets are improved, and the
land is all stony and rough throughout the
city. In many places, in rainy weather, it is
impossible to get across some streets without
going out of your way a square or two. But,
as a "spirit" of improvement has come on
the City Council, a change may be looked for
in this respect in about ten years. Council
has concluded to pave one street each year
until all are done. One old negro man here
bought a tract of land about three years ago
for \$800, and, since the "boom" struck the
place, he has been offered \$70,000 for it, but
wants \$100,000. There are other cases of this
kind, but one is enough to show how the
"boom" value is out of all comparison to the
real value. The fact of the matter is
about this, the speculators have been here,
reaped their harvest and gone, and soon the
bubble will burst, and some people will reap
the "whirlwind" and wonder how such things
can be. It is the opinion of a great many now
here that such will be the case. There are 300
real estate agents here now and new firms
springing up daily.

No doubt there was a great demand for la-
boring men here when the town was first
"boomed," but this has been done to such an
extent, that outside of carpenters and negroes
there is not enough work to employ those
who are now seeking employment, and each
train is continually adding to the list. Wages
paid here are small in comparison to other
places and the cost of living. For instance,
carpenters get from \$1.50 to \$2 per day, the
outside for first class men. Common labor-
ing men get \$1 to \$1.25 per day, while printers
(morning papers) and that class of skilled
labor get \$15 per week.

As to cost of living here, a house of three
rooms cannot be had for less than \$15 to \$20
per month, and a five-room house commands
\$30. Provisions are higher here than in Cin-
cinnati, and coal, although mined from a hill
on one side of the town, costs as much as at
Cincinnati. This may seem strange, but it is
a fact, nevertheless. The only way a laboring
man can come out even here, so I am told, is
to take boarders, and nearly every other
house in the residence part of the town is a
"boarding house." So scant are accommo-
dations, that many of them put four to six
men in a room; rates \$1.50 to \$5 per week.
Even some of the hotels are crowded to this
extent. To get a house you have to speak for
it before the foundation is commenced.

The houses in the business portion of the
city are all well and substantially built, but
those building (for rent or for sale) are put up
as quick as possible and in the cheapest man-
ner. The Elyton Land Company are the most
largely interested in the building going on
here. They have contracted with Mr. Bu-
mont to build for them 500 houses, to be "put
up" at the rate of one house per day.

The supply of water is procured from a creek,
about four miles from the town, called "Vil-
lage Creek," and is furnished by a water-
works company, at fair rates to consumers.

The city has a gas company that furnishes
gas of about the usual quality and at about the
usual rates of other cities—to a certainty not
any cheaper or any better than that at Cin-
cinnati. There is also an electric light plant
here, but only the larger business houses are
using it as yet. As to railroad accommo-
dations, Birmingham will soon be ahead of any
city in the South; provided, however, that the
"bubble" does not burst too soon. She now
has the Louisville and Nashville, Cincinnati,
New Orleans and Texas Pacific (Queen and
Crescent) and Georgia Pacific. A new road is
also building from Kansas City, and routes
are being surveyed for other roads. One road
is now in process of construction that will be
a great advantage to her citizens, and that is
the "Belt Road," as it is called. This road
will form a complete circle around the
"basin" running around close to the foot of
the hills, and is intended for passenger and
freight accommodation. All work on the
railroads, such as grading, track-laying, etc.,
is done by colored men, and the same can be
said of common labor around the blast fur-
naces; only skilled laborers are white men.

I have endeavored to give your readers, and
particularly those interested in the advance-
ment of Maysville, the plain but exact con-
dition of the "boom" here. By the extensive
"booming" given this place, immense for-
tunes have been made, and it is almost cer-
tain that many fortunes will be lost before

the real estate business settles down to a solid
bottom here. As a gentleman from Cin-
cinnati remarked to me: "Property in and
around Birmingham can be bought for less
money six months or a year hence than it can
be had for now." He came here to purchase,
but thought prices too much inflated and con-
cluded to go home and await developments
awhile.

Maysville undoubtedly needs "booming,"
but she wants one that will come to stay; one
that will benefit her merchants and citizens
generally, and not one that will only be a
benefit to the holders of her surplus real es-
tate. Such "booming" had better be left out
entirely, as it is bound to recede, and take
years to get over the effect. Indianapolis,
Ind., was "boomed" out of all reason some ten
or twelve years ago, and is now just recover-
ing from the effects of the reaction, as prop-
erty has been slowly but steadily advancing
for the past year, and all her manufacturing
are enlarging, and others are going there to
locate and to stay.

All that Maysville needs is a proper ad-
vancement of her advantage as a shipping
point; her unexcelled river and wharf front-
age, and a proper inducement as to subscrip-
tion in cash or donation of sites—or both—and
she will "catch on."

Let the mechanic, of whatever class, stop
and consider the matter before he leaves
Maysville for Birmingham, or any other place
where this "booming" is going on, and my
opinion is that he will conclude to stick to
Maysville awhile longer, even if she is "away
behind the times." To make a trip to Birm-
ingham, Ala., or Wichita, Kas., or Findlay,
O., even for only a short stay, would cost at
the very lowest \$35, and most probably you
would be out \$50. This would pay up five
shares in your "natural gas company," and
you are certain not to be out any more than
if you made the above-mentioned trip, even
if the enterprise should prove a total failure;
but if it should prove a success, your gain
would be a thousand fold. Stay at home,
join in the attempt to induce manufacturers
to locate at Maysville—and a good gas well
would be the best inducement possible—and
you will have all the work you can do, and at
better wages. After you get west of the Mis-
sissippi or south of the Ohio, wages are a
great deal less, compared with the cost of
living.

KENTUCKIAN.

CITY COUNCIL.

Usual Work Done, With Something
of Interest Added.

City's Indebtedness to Be Looked Into,
and a Work-house Talked of.
Reports and Claims and
Accounts.

The regular meeting of the City Coun-
cil was held last evening. The members
were all present. After usual disposition
of minutes of last meeting, the reports of
the various city officers were read and
approved.

Mayor Pearce reported fines assessed
for past month at \$284, all of which had
been paid or secured, except \$6.

Marshal Heflin reported following col-
lections: Fines, \$46; old bonds, \$4.00;
taxes for 1886, \$40.81.

Marshal Heflin's report for first quar-
ter, for station house, was as follows:

DEBITS.	
55 males at 40c. per day, worked out.....	\$188 50

The following claims were referred
back for proper indorsement:

J. H. Pecor.....	\$3 90
Owens & Barker.....	2 34
Crawford & Short.....	1 90

The Collins & Rudy Lumber Company
were granted permission to use twenty-
five telephone poles, the line to connect
their office with that of Owens & Bark-
ley's, and the Bell Telephone Co. was
given further time to remove the rest of
of its poles.

The matter of buying three hundred
feet of hose for Amazon Fire Company
was referred to Committee on Fire De-
partment to prepare specifications and
report.

PERMITS GRANTED.

Phillip Wheeler, to erect addition to his
residence.

Mrs. Mary J. Conrad, to erect addition to
her residence.

L. Roser, to erect summer kitchen rear of
restaurant.

Wm. Lally, to erect a frame house on Janu-
ary street.

Ladies of M. E. Church, South, were
given leave to put up temporary sign at
"Woman's Exchange."

Application of Q. A. Means & Son to
erect a swinging sign on east Second was
tabled.

Chas. B. Owens and George F. Eitel
were granted coffee house license.

Petition of Mrs. Godfrey Miller as to
condition of Rosemary alley was read
and matter referred to Committee on
Public Health and the Marshal. The
same disposition was made as to the con-
dition of alley from Short to Short streets,
south of Second.

Petition of Hon. R. H. Stanton, C. L.
Stanton, Sam'l Blank, James H. Hall
Plow Co., R. F. Means and others as to
condition of Front street, Fifth ward, was
read, and matter referred to Committee
on Laws and Ordinances to investigate
and report.

J. W. Oler's claim for \$44 50 for
damages to his property by overflow
from M. & B. S. Railroad was referred to
Committee on Claims.

On motion of Mr. Poyntz, the Clerk
was ordered to prepare a detailed state-
ment of city's indebtedness to January
1st, 1887, and report at next meeting.

Double crossing was ordered put down
at Third and Market, east side, and a new
gutter on south side of Third, east of
Market.

On motion of Mr. Shannon, a com-
mittee of six—Dr. Phister and Messrs.
Hugh Shannon, Jno. N. Thomas, J. H.
Rains, W. H. Cox and W. B. Mathews—
was appointed to confer with next Court
of Claims as to building a workhouse for
city and county.

It was ordered that the city pay for
lighting a bracket gas lamp in front of
the opera house, the bracket and lamp to
be furnished by Washington Fire Com-
pany.

Mr. Rains called attention to the dan-

ger from slip on Washington pike. Ordered
that the place be thoroughly drained.

Question of keeping in repair 400 feet
of Blue Run pike, West End, was referred
to Committee on Internal Improvements.

Ways and Means Committee was au-
thorized to borrow funds for current ex-
penses.

Matter of appointing Board of Equal-
ization was tabled after a lengthy discus-
sion as to its cost, work, &c.

Ringbolts were ordered put in at grade,
and after transacting other business of
less importance, Council adjourned.

Crowded Out.

A large amount of news and several
advertisements were crowded out of to-
day's issue. This notice is due our pa-
trons, who will pardon the delay.

Shackleford's Pharmacy.

Most attractive store in town—in "Cox
Building." Fine old wines and liquors
for medical purposes. Pure drugs.
Toilet articles in great variety.

A Terrible Fire.

What a thrill of terror passes over us
when we read the record of some fearful
devastation by fire, and yet it is a fact
that thousands are daily being consumed
by the inward fire of fever, caused by
consumption of the lungs, which could
be subdued by Dr. Pierce's "Golden
Medical Discovery."

Brace Up.

You are feeling depressed, your ap-
petite is poor, you are bothered with
headache, you are fidgety, nervous and
generally out of sorts, and want to brace
up. Brace up, but not with stimulants,
spring medicines, or bitters, which have
for their basis very cheap, bad whiskey,
and which stimulate you for an hour,
and then leave you in worse condition
than before. What you want is an
alternative that will purify your blood,
start healthy action of liver and kidneys,
restore your vitality, and give renewed
health and strength. Such a medicine
you will find in Electric Bitters, and only
50 cents a bottle at the drug stores of J.
C. Pecor & Co., and S. P. Campbell &
Co., of Aberdeen Ohio.

ROYAL
BAKING
POWDER
Absolutely Pure.

This powder never varies. A marvel of pur-
ity, strength and wholesomeness. More eco-
nomical than the ordinary kind, and cannot
be sold in competition with the multitude of
low test, short weight alum or phosphate
powders. Sold only in cans. ROYAL BAK-
ING POWDER CO., 108 Wall St., New York.

WAUKENPHAST!

Our Waukenphast Shoes are made on lasts
patterned after the shape of the human
foot, and the Ease
and Comfort they

Browning & Co.,

No. 3 E. Second St.
have the latest styles
of Dry Goods, Fancy
Goods, Notions, &c.,
which they are offer-
ing at the very low-
est prices. Call and see

DISASTROUS LAND SLIDE.

RAILROAD PROGRESS STOPPED BY MASSES OF ROCK AND EARTH.

The Accident Caused By the Recent Earthquake—Marvellous Escape of a Train Laden With Tourists—Father McGlynn Must Visit Rome—Other Foreign News.

MONTREAL, April 8.—A heavy land slide occurred here to-day. Immense masses of rock and earth slid down and now entirely block the railway and carriage road. Trains from Cannes and Mentone, well laden with tourists, had marvellous escapes from destruction, getting over the tracks just in time to avoid annihilation.

The landslide is so great that it will stop all railway communication with Monte Carlo for at least twenty-four hours. The landslide was undoubtedly the result of the shocks which the promontory received during the earthquake which began along the whole Riviera on the morning of Ash Wednesday. The first shock was the greatest in force. It will be remembered that while all the other towns in the Riviera were badly shattered by these earthquakes, Monte Carlo was pronounced entirely unaffected. Scientists ascribed this to the solid rocky character of Monaco's formation.

Refugees from all the other resorts flocked here. To-day's vast landslide, occurring, as it did, at a point where engineers a generation ago caused, as they thought, the complete removal of all unstable projections or overhangings, and where for years the railway and highway travel has been great, shows how violent the earthquakes were.

Cartridges Seized. MADRID, April 8.—Three carts containing cartridges consigned to well known Carlist leaders were seized by the authorities at Gerona, in the province of that name yesterday. The men who had the explosives in charge, and several others known to be in sympathy with the pretensions of Don Carlos were arrested.

A Baseless Suspicion. ST. PETERSBURG, April 8.—Nearly all of the persons arrested here between March 18 and 24 for suspected complicity in the conspiracy to assassinate the czar on the occasion of the anniversary of the death of his father, have been set at liberty, the suspicion against them having been found to be baseless.

Against Coercion. NEWCASTLE-ON-TYNE, April 8.—The north of England is up in arms against the coercion bill. Every newspaper on either side in Durham, Yorkshire, Lancashire or the border counties prints accounts of the excitement over the question in the United States.

The Last Remnant of Friendship. BERLIN, April 8.—The Vossische Zeitung says the passage of the coercion bill by the English parliament must forever shatter the last remnant of friendship between the powers of the bill and those who are subjected to the severity of its terms.

Two Drownings at Sea. LONDON, April 8.—The Cunard Line steamer Pavia, Capt. McKay, which sailed from Queenstown yesterday for Boston, collided with and sank a fishing smack off Cape Clear. Two of the occupants of the smack were drowned.

Never Change Loyalty. VIENNA, April 8.—The Neue Freie Presse says the Irish coercion bill may possibly reduce the volume of crime in Ireland, but it can never have the effect of changing the enmity of the people into a feeling of loyalty to the empire.

McGlynn Must Visit Rome. ROME, April 8.—The pope is about to issue a letter sanctioning the principle of the creation of a Catholic university at Baltimore. The pope persists that Dr. McGlynn must come to Rome.

The Belfast Spider Challenged. BOSTON, April 8.—The question of who is the world's champion feather-weight pugilist is open again. Last evening the "Belfast Spider," who at present claims that honor, was challenged by Tim Murphy, the well known boxer of Jake Kilrain in his late fight with Lannon. The challenge calls for a fight to a finish with three one-glove, for a purse of \$2,500, the contest to come off within one hundred miles of Boston within two weeks after signing articles. To add weight to his challenge, Murphy has posted \$500. The "Spider" says he is perfectly willing and will meet Murphy Saturday to arrange the preliminaries.

Preparing to Elect a Senator. TALLAHASSEE, Fla., April 8.—The Florida state legislature is now in session. Lieutenant Governor Mayberry is ex-officio president of the senate. Samuel Posco was chosen speaker of the house. The chief interest of the election centers around the election of a United States senator to succeed Senator Jones. The leading candidates are ex-Governor W. D. Blaxham and the present governor, A. E. Perry, unless Senator Jones, of Detroit, Mich., puts in an appearance. It is reported that Jones has secured rooms, and will make an explanation and enter the race.

Boy Operator Guilty of Manslaughter. ST. THOMAS, Ont., April 8.—The jury on the inquest in the Springfield wreck returned a verdict that the death of Brakenham and Brakenham Odbert were caused through neglect of Operator Brown in disobeying orders. They also censured the Michigan Central for employing a boy of nineteen as night operator, and suggested that henceforth operators of full age of twenty-one be employed. A warrant was issued for Brown's arrest for manslaughter. He has fled, and his whereabouts are unknown.

Hung in Effigy. BRADFORD, Pa., April 8.—Representative Johnson was hung in effigy on the public square last night. On the figure were pinned two offensive placards. The judge did not vote to suspend the rules to bring up the Billingsly bill Tuesday, and some of his displeased constituents took this method of revenge.

Judge Smith, of Kentucky, Dead. FLEMINGSBURG, Ky., April 8.—Judge James E. Smith, aged sixty-two years, Democratic candidate for state auditor, died last evening. He had just returned from a campaign tour in the southwestern part of the state in ill health, but was not considered dangerously ill.

A visit to the powers of Paris was a feature of a press festival recently held in that city. Five hundred persons availed themselves of the singular programme.

POINTED PARAGRAPHS.

Topics of the Times Given in a Terse and Spicy Manner.

The Labor vote at St. Louis Tuesday was 5,000.

Fire at Buschel, Switzerland, destroyed sixty houses.

An earthquake was felt in New Hampshire yesterday.

The pope insists on the appearance of Father McGlynn at Rome.

Bower & Son, Philadelphia chemists, have failed. Liabilities \$500,000.

The bark Eldorado, from Seattle, with a crew of ten, has sunk in the Pacific.

For the first time in years Democrats control the Minneapolis common council.

Archbishop Lynch, of Toronto, protests against extravagance at Catholic funerals.

Governor Hill, of New York, will visit the White House after the state legislature adjourns.

Latassa & Co., iron importers, New York, have suspended. Liabilities \$100,000; mostly abroad.

All the north of England protests strongly against the new proposed coercive measure for Ireland.

Edward B. Caldwell, wealthy Englishman, of Perryburg, Mon., was killed by British Blood Indians.

Edward Cross, aged eighty-nine, ex-United States judge and ex-congressman from Arkansas is dead.

Jean Henri Dupin, the celebrated French dramatic author, is dead at Paris, aged ninety-six years.

At St. Paul John Murphy, a barber, was shot and killed by Mrs. Hagener, his employer's wife, whose chastity he had impugned.

Paul Leader, one of the defendants in the Haddock murder trial Wednesday, swore he saw Leavitt fire the fatal shot. Leavitt had testified that Arensdorf was the murderer.

Marvine Thompson, the "Cleveland Thunderbolt," was knocked out in a prize fight at Baltimore by James O'Day. Thompson was twice knocked off the stage, when the police interfered.

An unknown assassin shot through a window at Colored Preacher W. F. Lowry, of Pittsburgh, Sunday, while Lowry was in the pulpit. The bullet missed the preacher's head by two inches.

Two cowboys, George and Clarence Steln, brothers, attempted to take Minden, Mo., and were resisted by Marshal Ridge and Chaddock. George Stein was fatally shot and Clarence landed in jail. Both officers were wounded.

Southern military companies will probably reconsider their determination not to participate in the national drill at Washington next month, because of the presence of colored troops, as the colored soldiers will be camped and drilled separately.

The seven-year-old son of Moeck, a Chicago Anarchist, was run over by a street car. The company's surgeon was called to perform an operation, when Moeck, with an old-fashioned gun eight feet long, drove him off, saying a capitalistic doctor was going to cut off his leg.

Fatal Freight Train Collision. INDIANAPOLIS, April 8.—By a rear collision of freight trains on the Louisville, New Albany & Chicago railway, near Bedford, Conductor Ealy, of New Albany, and Corbair, of Guthrie, were fatally injured, and Mrs. Noah Pritchett and daughter were seriously hurt.

Sold for \$325,000. FORT MONROE, Va., April 8.—The Hygeia hotel was sold to-day for \$325,000. It was bought by Mrs. Phoebeus.

The Weather. WASHINGTON, April 8.—Slightly warmer, fair weather, variable winds, generally shifting to southerly.

FINANCE AND COMMERCE. Quotations of the Money, Stock, Produce and Cattle Market for April 7.

New York—Money 6 per cent. Exchange steady. Government firm.

Currency rates, 124 1/2 bid; four coupons, 129; four-and-a-half, 110 bid.

The stock market opened firm and 1/4 to 1/2 per cent. higher, and on a moderate buying of the leading speculative prices further advanced 1/4 to 1/2 per cent. by midday. Since noon the market has been dull, but values are fully maintained.

No. 24 Market Street, THE CHEAPEST STORE IN TOWN.

GOOCH'S MEXICAN SYRUP

OF WILD CHERRY, TAR, GLYCERINE, ETC. WILL CURE CONSUMPTION. Indisputable remedy for the cure of all affections of the Throat, Lungs and Chest, such as Consumption, Colds, Coughs, Asthma, Bronchitis, Whooping Cough, Croup, Pain or Oppression of the Chest, Hoarseness, Spitting of Blood, and all Pulmonary Diseases.

CONSUMPTION CAN BE CURED!

WE have the gratifying fact to know that it can be cured with GOOCH'S MEXICAN SYRUP. Tuberculous matter is nothing more than nourishment imperfectly organized. Now, if we can procure the organization of this food material, that through the process of electric affinity it may take its place in the system, we can cure the disease. This is just what this Syrup does. It at once stops the progress of the disease by preventing the further supply of tuberculous matter, for while the system is under its influence all nourishment is organized and assimilated. It thus controls Coughs, Night Sweats, and all other symptoms of Consumption. Consumption is one of the most loathsome and terrible of all diseases, and makes the life of the poor consumptive a hell on earth. Until recently that terrible disease has been considered an affliction beyond the reach of medicine; but a new era in the management of pulmonary diseases seems to be dawning upon the scientific medical world, and, since many distinguished physicians have acknowledged that consumption can be cured, few there are who attempt to controvert their opinion. To those singled out as victims to that fatal malady, we offer a remedy sure in its result in bringing back health to their poor weakened frames, and joy to the hearts of their friends. Consumptives, because all other things fail, believe not that MEXICAN SYRUP will. Not a single sufferer need perish if he or she will take GOOCH'S MEXICAN SYRUP in time. A cough is unlike any other symptom of disease. It stands a conspirator, with threatening vice, menacing the health and existence of a vital organ; so common at once at the first indication of a cough. TRY IT, you who suffer, and be convinced. Do you want to be saved from a consumptive's grave? Then make one more trial. The remedy is in the reach of everybody; it only costs 50 cents a bottle. Is your life not worth 50 cents? I can make one more trial. Is not your life indeed worth one more trial? Test the truth of our words, only by one single bottle; and never give way to despair till you are certain there is no hope. It has cured thousands, and it will cure you. As we would plead with a friend to save him from taking his own life, we plead with you to save yourselves from a premature grave. We positively guarantee a perceptible and continuous improvement when the medicine is faithfully and persistently used.

PREPARED BY THE CINCINNATI DRUG AND CHEMICAL CO., 54 Main St., Cincinnati, Ohio.

FOR SALE BY ALL DRUGGISTS. If not on sale at nearest dealer, will send two bottles, post paid, on receipt of \$1.00.

"We do hereby certify that we supervise the arrangements for all the Monthly and Semi-Annual Drawings of the Louisiana State Lottery Company, and in person manage and control the Drawings themselves, and that the same are conducted with honesty, fairness, and in good faith toward all parties, and we authorize the Company to use this certificate, with facsimiles of our signatures attached, in its advertisements."

Commissioners.

We the undersigned Banks and Bankers will pay all Prizes drawn in the Louisiana State Lottery which may be presented at our counters.

J. H. OGLEBAY, Pres. La. National Bk. T. LANAUX, President State Nat'l Bk. A. J. DUBOIS, Pres. N. O. National Bk. CARL ROBIN, Pres. Union Nat'l Bk.

Unprecedented attraction! Over HALF A MILLION distributed!

LOUISIANA STATE LOTTERY COMPANY

Incorporated in 1888 for twenty-five years by the Legislature for Educational and Charitable purposes with a capital of \$1,000,000 to which a reserve fund of over \$50,000 has since been added.

By an overwhelming popular vote its franchise was made a part of the present State Constitution adopted December 3, A.D. 1878.

The only Lottery ever voted on and endorsed by the people of any State.

It never scales or postpones.

As a Grand Single Number Drawing takes place monthly, and the Semi-Annual Drawings every six months (June and December).

A splendid opportunity to win a Fortune, Fourth Grand Drawing, class D, in the Academy of Music, New Orleans, Tuesday, April 12, 1887—23d Monthly Drawing.

Capital Prize, \$150,000.

NOTICE.—Tickets are \$10 only; Halves, \$5; Fifths, \$2; Tenths, \$1.

Application for rates to clubs should be made only to the office of the company in New Orleans.

For further information write clearly, giving full address. POSTAL NOTES, Express Money Orders, or New York Exchange in ordinary letter. Currency by express (at our expense) addressed to

A. DAUPHIN, New Orleans, La.

Or M. A. DAUPHIN, Washington, D.C.

Address Registered Letters to NEW ORLEANS NATIONAL BANK, New Orleans, La.

Remember that the presence of

and Early, who are in charge of the drawings, is a guarantee of absolute fairness and integrity, that the chances are all equal, and that no one can possibly divine what numbers will draw a Prize. All parties, therefore, advertising to guarantee Prizes in this Lottery, or holding out any other impossible inducements, are swindlers, and only aim to deceive and defraud the unwary.
